

# **Aid in Support of Gender Equality and Women's Empowerment - Donor Charts**

March 2013

Statistics based on DAC Members' reporting on the Gender Equality Policy Marker, 2010-2011

Creditor Reporting System database

# DEFINITION

## THE GENDER EQUALITY POLICY MARKER

### DEFINITION

An activity should be classified as gender equality focused (score Principal or Significant) if:

It is intended to advance gender equality and women's empowerment or reduce discrimination and inequalities based on sex.

### CRITERIA FOR ELIGIBILITY

Gender equality is explicitly promoted in activity documentation through specific measures which:

- a) Reduce social, economic or political power inequalities between women and men, girls and boys, ensure that women benefit equally with men from the activity, or compensate for past discrimination; or
- b) Develop or strengthen gender equality or anti-discrimination policies, legislation or institutions.

This approach requires analysing gender inequalities either separately or as an integral part of agencies' standard procedures.

### EXAMPLES OF TYPICAL ACTIVITIES

Examples of activities that could be marked as principal objective:

- legal literacy for women and girls;
- male networks against gender violence;
- a social safety net project which focuses specifically on assisting women and girls as a particularly disadvantaged group in a society;
- capacity building of Ministries of Finance and Planning to incorporate gender equality objectives in national poverty reduction or comparable strategies.

Such activities can target women specifically, men specifically or both women and men.

Examples of activities that could be marked as significant objective:

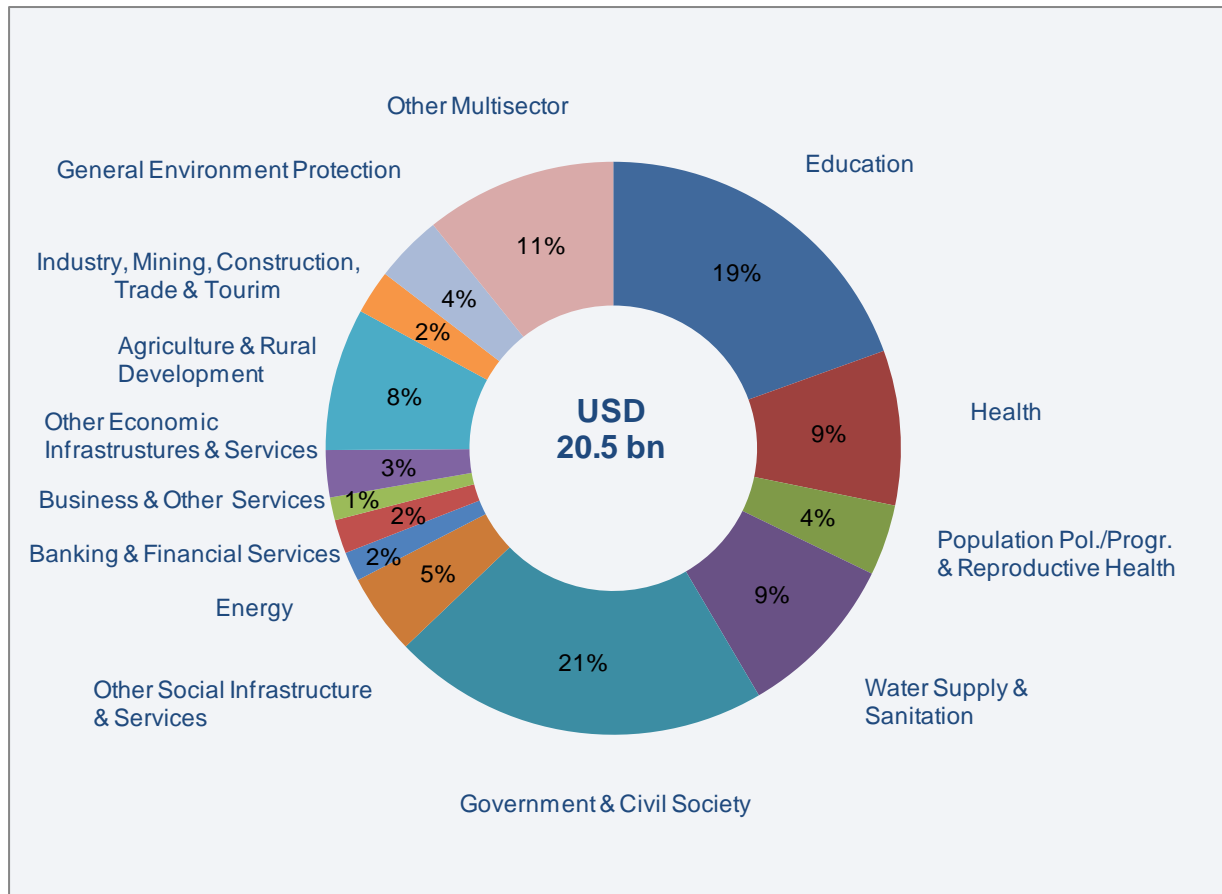

- activity which has as its principal objective to provide drinking water to a district or community while at the same time ensuring that women and girls have safe and easy access to the facilities;
- a social safety net project which focuses on the community as a whole and ensures that women and girls benefit equally with men and boys.

**N.B.** Support to women's equality organisations and institutions (**CRS sector code 15170**) scores, by definition, principal objective.

---

# OVERVIEW

## Gender Equality Focus of DAC Members' Aid by Sector Average annual value of commitments in 2010-2011 constant 2010 USD 20.5 billion

**Coverage** – As not all DAC members report fully the gender equality focus of their aid, this chart covers **only a part** of total reported aid that is allocable by sector in 2010-2011. The implementation of a new typology of aid in 2010 by DAC members has raised the coverage including aid for core support to NGOs, private bodies, PPPs and research institutes that was previously counted in non sector-allocable aid.

*For reference, total sector-allocable aid (including members not reporting on the gender equality policy marker), average 2010-2011: constant 2010 USD 91.9 billion.*

This chart is based on commitment data, which best reflect current policies by donors. A two-year average is given, as the focus and volume of commitments vary from year to year. DAC members use a 'marker' to identify activities that have gender equality as a principal or significant objective. Reporting has improved in recent years, although data analysis is hampered by the difficulties some members have in applying the methodology. The currently available data nevertheless give an indication of the extent to which those donors that report address gender equality in their aid programmes.

## AID AT A GLANCE - DONORS' CHARTS

The following charts (2010-2011) summarise statistics on **aid focused on gender equality and women's empowerment** extended by each DAC member. Information shown includes the gender equality policy marker coverage, the top ten recipients and a sector breakdown of aid focused on gender equality and women's empowerment.

**Guidance for the interpretation of the charts:** The first element to take into account when analysing the data for one country or when comparing data between countries is the **COVERAGE RATIO**, i.e. the proportion of aid which is screened. A high percentage of gender equality focused aid ALONE does not mean that aid is well aligned with the gender equality policy objective, such a conclusion would only be valid for a donor with 100% coverage. When comparing data between donors, both coverage ratio and % of aid focused on gender equality and women's empowerment have to be considered. (A number of members do not screen contributions that are by nature likely to fall under the "not targeted" category, e.g. imputed student costs. Therefore, a high amount in the category "not screened" generally increases the percentage of gender equality focused aid significantly.)

### Aid in support of Gender Equality and Women's Empowerment, 2010-2011 average (2010 USD million)

<b>Total DAC members</b>	<b>3,190</b>	<b>17,327</b>	<b>20,517</b>	<b>32</b>	<b>42,987</b>	<b>63,504</b>	<b>5,783</b>	<b>91,854</b>	<b>457</b>

(1) : The United States has implemented an improved data collection for the gender equality marker; data for 2011 will be available in the coming months (no data available for 2010).

Note: An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was found to not be targeted to it.

# Aid in Support of Gender Equality and Women's Empowerment 2010-2011

## Australia

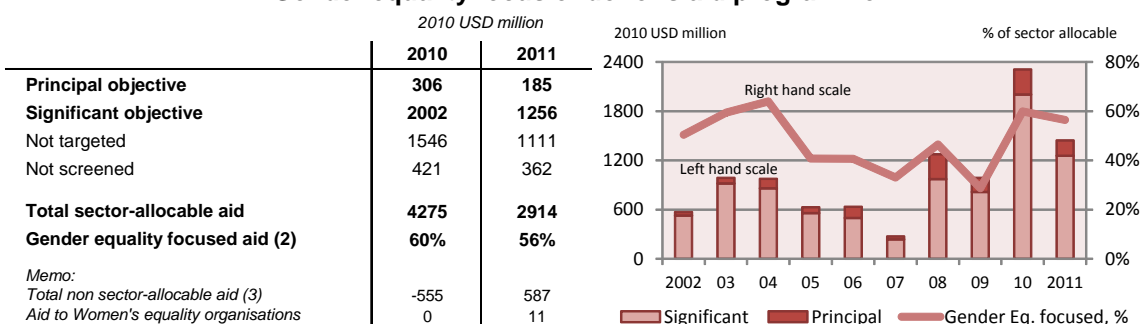

Amounts are average commitments for 2010-2011, unless otherwise shown

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (1).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

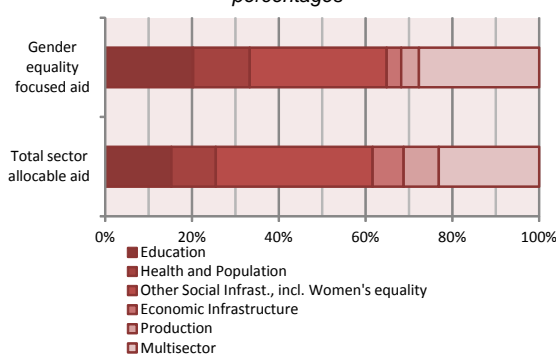

Not all activities have been screened against the gender marker: the coverage ratio for sector-allocable activities is **89%**.

(2) % of sector allocable aid. Activities not screened against the gender equality marker have been excluded.

(3) The negative amounts shown here refer to cancellation of commitments made in earlier years which were reported as an aggregate and not allocated by sector.

**Note:** Statistics on gender focus exclude non sector-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance (e.g. general budget support...), debt relief and emergency aid.

# Aid in Support of Gender Equality and Women's Empowerment 2010-2011

## Austria

Amounts are average commitments for 2010-2011, unless otherwise shown

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (1).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

All activities have been screened against the gender marker: the gender coverage ratio is thus 100%.

(1) DAC Guidelines for Gender Equality and Women's Empowerment in Development Co-operation, 1999

(2) % of sector allocable aid. Activities not screened against the gender equality marker have been excluded.

(3) In CIDA's internal reporting system, the gender equality marker can take four values: "specific", "fully integrated", "limited integration" and "none". For CRS reporting purposes, the first two values are mapped to score "principal" whilst the third value is mapped to score "significant". The extent to which Canada's methodology matches the DAC scoring system is under review.

**Note:** Statistics on gender focus exclude non sector-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance (e.g. general budget support...), debt relief and emergency aid.

# Aid in Support of Gender Equality and Women's Empowerment 2010-2011

(2) % of sector allocable aid. Activities not screened against the gender equality marker have been excluded.

**Note:** Statistics on gender focus exclude non sector-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance (e.g. general budget support...), debt relief and emergency aid.

# Aid in Support of Gender Equality and Women's Empowerment 2010-2011

## France

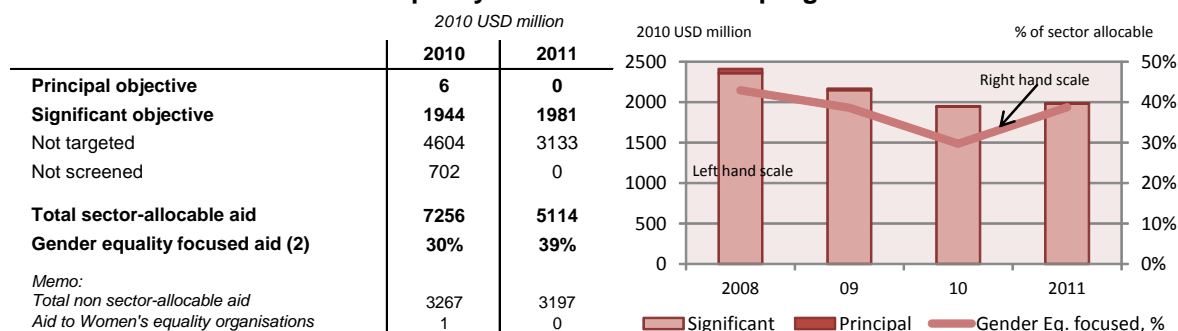

Amounts are average commitments for 2010-2011, unless otherwise shown

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (1).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

Not all activities have been screened against the gender marker: the coverage ratio for sector-allocable activities is 94%.

(2) % of sector allocable aid. Activities not screened against the gender equality marker have been excluded.

**Note:** Statistics on gender focus exclude non sector-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance (e.g. general budget support...), debt relief and emergency aid.

# Aid in Support of Gender Equality and Women's Empowerment 2010-2011

## Norway

Amounts are average commitments for 2010-2011, unless otherwise shown

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (1).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

All activities have been screened against the gender marker: the gender coverage ratio is thus 100%.
